

YELLINA YUVA SRIMAN BALAJI

CAREER SUMMARY

Enthusiastic AI & ML student with practical experience in machine learning, predictive modeling, and data analysis using Python, TensorFlow, and Scikit-learn. Eager to leverage technical skills and innovative thinking to contribute to impactful AI-driven solutions.

WORK EXPERIENCE

Machine Learning Intern

Get Software Services Inc. (Remote)
Apr 2026 – June 2026

- Assisted in software testing, debugging, and performance enhancement of AI applications.
- Collaborated with team members on real-world AI and machine learning projects.
- Applied analytical and problem-solving skills to deliver practical AI-driven solutions.
- Gained hands-on experience in the complete machine learning lifecycle, from data collection to model deployment.

PROJECTS

AI-Based Crop Prediction System

Jun 2024 - Jan 2025

- Developed a machine learning model to predict crop yield and recommend suitable crops based on soil and weather conditions.
- Used Python, Pandas, Scikit-learn, and data visualization techniques.
- Improved decision-making through data-driven agricultural insights.

AI-Powered Government Scheme Recommendation System

Jan 2025- Jun 2026

- Built an NLP-based recommendation system to suggest relevant government schemes to users.
- Applied text preprocessing, feature extraction, and machine learning techniques.
- Enhanced accessibility of government welfare information.

ACHIEVEMENTS

- Participated in 24-Hour Hackathon and collaborated on innovative solutions.
- Shortlisted for the Adani University Innovation Challenge.
- Developed AI/ML projects addressing real-world problems.
- Active participant in technical workshops and competitions.

INTERESTS

- Artificial Intelligence & Machine Learning
- Data Science
- Generative AI
- Software Development
- Problem Solving
- Technology Innovation

- 9-386 Regulakunta, West Godavari, Andhra Pradesh

EDUCATION

Bachelor of Technology

Vel Tech Rangarajan Dr. Sagunthala R&D
Institute of Science and Technology
2023 - 2027

SKILLS

- Python
- SQL
- Machine Learning Fundamentals
- Pandas & NumPy
- Data Preprocessing
- Scikit-learn
- TensorFlow (basic concepts)
- Git & GitHub
- OOP Concepts
- Problem Solving

CERTIFICATIONS

- Machine Learning Fundamentals
- Python Programming
- Data Analytics Essentials
- UI/UX Design Workshop
- Figma Design Workshop

LANGUAGES

- Telugu – Native
- English – Professional Proficiency
- Tamil – Intermediate
- Hindi – Intermediate
